Anderson County Primary Election Results

Tuesday was Anderson County primary election day, and after several months of campaigning, the voters made their choices in several contested races. In all, including early voting, absentee ballots and election day voters, 10,390 Anderson County citizens headed to the polls.

All of the contested races were on the Republican side of the ballot and five of them decided the August general election as well. No contested Democratic races were on that side of the ballot.

In the highest-profile race, for County Mayor, incumbent Terry Frank held off a stiff challenge from Commissioner Steve Emert to secure a second, full, four-year term in office. Despite trailing after early voting, Terry Frank made up the slim difference to win with 4,771 votes compared to Steve Emert's 4,618, a difference of only 153 votes.

The race for Circuit Court Clerk was also decided in the Republican primary, where former County Mayor Rex Lynch easily unseated incumbent William Jones by a margin of 5,600 votes to 2,639.

Two longtime incumbents fended off challenges in the GOP primary, starting with County Clerk Jeff Cole, who was re-elected to a fifth term in office by a margin of 6,665 votes to challenger Leesa Arowood's 2,538.

Fellow incumbent Tim Shelton was also re-elected to a fifth term, garnering 6,456 votes to Michael Foster's 2,479. Both Arowood and Foster were running their first campaigns for elected office.

Road Superintendent Gary Long was unopposed in Tuesday's primary and also faces no opposition in the August general election, so he will serve another four year term after receiving 8,236 courtesy votes.

There were two Republican primaries where the winners will face opposition later this year and those were the races for the GOP nominations for Sheriff and Trustee.

In the Sheriff's race, Russell Barker earned the nomination with 4,314 votes, outpacing Lewis Ridenour with 3,150 votes and Mark "Hollywood" Whaley, who picked up 1,575 votes. Barker, the Director of the 7th Judicial District Drug Task Force, will face Democrat Mark Lucas in August. Lucas, who is currently the Chief Deputy of the ACSD, was unopposed on Tuesday and picked up 763 courtesy votes.

The Republican primary for the nomination to run for Trustee was won by Regina Copeland, who received 4,506 votes to defeat Scott Burton, who had 2,861 votes, and Scott Gillenwaters, who garnered 1,719. Copeland will face unopposed Democrat Ebony Capshaw in the August general election in a race that will make a little history in Anderson County. Capshaw is the first African-American woman to run for a countywide office in the history of Anderson County and it is believed that this will be the first countywide race to feature two female candidates.

NEW BRIDAL CABIN OPENS AT NORRIS DAM STATE PARK

Like no other facility anywhere in Tennessee State Parks, Norris Dam leads the way in innovation for wedding venues! Announcing the opening of the FIRST, one of a kind, Bridal Wedding Cabin!

The staff at Norris Dam have transformed a vacant Park Ranger residence into the supreme venue for brides and party to use prior to their special wedding ceremony in the amphitheater and Tea Room.

Often, the bridal party have used the historic CCC cabins to get ready for the wedding in the Tea Room. Now, there is room for the bride and her bridesmaids, all under one roof, out of view from the groom, to get ready and walk over for the ceremony.

This suite includes two bedrooms: brides queen and two full size beds, 2 full baths, full kitchen, washer/dryer/ironing board, living room with TV/DVD and mirrors everywhere! *The perfect place for the bride and her attendants to spend time together and prepare.*

This suite will only be available to parties with the Tea Room reserved, and the rental will last 3 days, \$600.00. Contact Wendy and Kathi to set up a viewing, 865-426-7461. Most likely, the viewing will be conducted by the housekeeping staff who have worked for months along with their regular duties to make this happen. Nona, Michelle, Melinda and Melissa, are the brains behind making this a perfect place. Gary, Mark, Gordon, Shane and Tom have worked in tandem with the ladies. We are very proud of this addition to the park!

Rx Take Back Events in Anderson a Success

Over 400 Pounds of Medicine Collected at Take Back Events in Anderson County

Anderson County, TN, May 2018 – The weather was prime for the DEA National Rx Take Back event Saturday. Community members across the county did their part in decreasing access to controlled substances and brought their expired and unused medicines to Clinton Police Department, Oak Ridge Police Department, and Rocky Top Police Departments. Drive-thru collection sites were located at each of the police departments. Police department staff and ASAP of Anderson volunteers enjoyed the sunshine while speaking with community members who were responsibly disposing of their unused medications.

"We had a good turnout as always. I enjoyed talking to people that stopped by about the pill disposal program," said Assistant Chief Vaughn Becker from Clinton Police Department when asked about how the day went.

In addition to the DEA National Rx Take Back Event, Oak Ridge National Lab (ORNL) and ORAU each hosted an OperationRx collection day on their campuses. ORNL and ORAU annually partner with ASAP of Anderson and Oak Ridge Police Department to offer on-campus medicine disposal in conjunction with Earth Day. Proper disposal of medications not only decreases access and misuse of substances, but also decreases the amount of environmental contamination in our water ways. These two events alone brought in hundreds of pounds of medicines for incineration.

Between these three days, over 400 lbs of medicine were collected to prevent drug addiction and overdose deaths in our community and communities across the U.S. Anderson County also has six permanent disposal bins located throughout the county – one in each Police Department in Clinton, Norris, Oak Ridge, Oliver Springs, and Rocky Top, as well as at Walgreens Oak Ridge next the pharmacy counter. These bins continue to be available as additional disposal points seven days a week.

For questions, contact ASAP of Anderson at 865-457-3007 or visit www.asapofanderson.org. Follow @ASAPofAnderson on Facebook, Twitter and Instagram.

TRAIL DOZER COMING TO NORRIS DAM STATE PARK

A purchase order has been issued for a new trails construction dozer for Norris Dam State Park. Funding for this equipment provided by a Recreation Trails Grant (RTP) , regulated by the Tennessee Department of Conservation – Recreational Services Division. The grant was issued in September 2016 and finally all the necessary checks and balances have been resolved. Trails Volunteer Chuck Morris is excited about the acquisition and looks forward to getting on with building some 6 miles of new trails already planned. The dozer will be used for maintenance of existing trails also. Park staff is interested in your input.....what color should the new dozer be? The person with the winning suggestion will get an opportunity to have your photo made while SITTING in the dozer seat (not operating). Delivery is expected in August.

Thank you

April 23, 2018

I would like to say Thank You to the Rocky Top Worship Center located in Rocky Top, TN for the generosity they showed during an Emergency Vehicle Operations Course (EVOC) during the weekend of April 21st. They allowed the Rocky Top Fire Department and Medford Volunteer Fire Department to use their property for the purpose of educating, training, and testing firefighters' abilities to drive an emergency apparatus. They granted us permission to use their parking lot as grounds for the road course required for the training. Nine (9) of our firefighters and five (5) firefighters from the Medford Volunteer Fire Department attended this class and received valuable training as a result of the generosity that the Rocky Top Worship Center showed by providing the Rocky Top Fire Department and Medford Volunteer Fire Department access to their facilities. We successfully re-certified (13) firefighters and certified one (1) new firefighter due to the Rocky Top Worship Center's willingness to help local fire departments. This training is not only beneficial to the firefighters who attended the class, but also to our citizens in the community we serve.

Thank you,

Swimming Safely in Lakes, Rivers and Streams

Swimming in lakes, rivers and streams can be safe at designated swimming areas that are protected by lifeguards.

Swimming in a natural body of water is different from swimming in a pool. More skills and energy are required for natural water environments because of cold water and air temperatures, currents, waves and other conditions—and these conditions can change due to weather.

Life Jackets Are Not Just for Boating.

Many people involved in aquatic emergencies never intended to swim in the first place. Whenever you are around water, take steps to prepare for the unexpected, such as wearing a U.S. Coast Guard-approved life jacket, also known as a personal flotation device (PFD). Select and use the right life jacket by:

- Checking the life jacket label for proper usage and sizing and to be sure that it is U.S. Coast Guard approved.
- Making sure each life jacket fits its intended user.
- Checking buckles and straps for proper function. Discard any life jacket with torn fabric or straps that have pulled loose.
- Making sure everyone tests swimming in a life jacket in a swimming pool.

How Do I Prepare?

Be Aware of Water and Weather Conditions.

Whenever you are near a natural water environment, look out for:

- Unexpected changes in air or water temperature.
- Fast-moving currents, waves and rapids, even in shallow water.
- Hazards, such as dams, underwater obstacles, or rocks or debris moving on the surface or along the bottom of the water.
- Aquatic life, such as vegetation that could entangle feet or animals that live in, on or around the water.
- Sudden drop-offs that change water depth.
- Other people's activities in the same waters, such as boating.

Make Smart Choices.

Planning ahead and staying informed can help keep everyone in your group safe. Remember to:

- Be aware of the potential hazards of the area you are visiting and take appropriate precautions.
- Check water and weather conditions before your trip and frequently during your stay.
 - Watch for signs of severe weather and leave the water at the first indication of thunder and lightning. In the event of an electrical storm, stay inside an enclosed area for at least 30 minutes after the last thunder clap. If outside, avoid open areas, tall, isolated trees or metal objects.*
- Know the abilities of those going with you, including swimming abilities and level of supervision required. Be sure to provide appropriate supervision.

What Do I Do at the Waterfront?

Practice Water Safety.

- Ensure that everyone in your family learns to swim well by enrolling them in age-appropriate learn-to-swim courses.
- Swim only in areas that are designated for swimming with buoys and ropes and are supervised by lifeguards.
- Keep children under constant active supervision and remain free from distractions. Ensure that inexperienced swimmers stay within arm's reach.
- Have weak swimmers wear U.S. Coast Guard-approved life jackets whenever they are in, on or around water. Do not rely upon water wings or inflatable toys; they can enable swimmers to go beyond their ability or suddenly deflate, which could lead to a drowning situation.

Set and Enforce Rules.

- Always swim with a buddy.
- Always enter unknown or shallow water cautiously, feet first.
- Dive only in water clearly marked as safe for diving. Diving areas should be at least 9 feet deep with no underwater obstacles.
- Do not enter the water from a height, such as a tree, ledge or bridge.
- Be careful when standing to prevent being knocked over by currents or waves.
- Do not use alcohol and/or drugs before or while swimming, diving or supervising swimmers.

Prevent Recreational Water Illnesses.

Natural water can become contaminated from sewage, animal waste and water runoff following rainfall. Swimming or playing in unsafe water may result in illnesses. It is important to:

- Avoid swallowing the water.
- Contact your state or local health department for results of water testing in your area.
- Avoid swimming after rainfalls or in areas identified as unsafe by health departments.

How Do I Respond?

Know How to Respond in an Emergency.

- If a child is missing, always check the water first! Seconds count in preventing death or disability from drowning.
- If present, always alert the lifeguard in the event of an emergency.
- Know how and when to call 9-1-1 or the local emergency number.
- Learn how to respond to aquatic and other emergencies by taking Red Cross first aid, CPR and water safety courses.
- Have appropriate equipment, such as reaching or throwing equipment, a cell phone, life jackets and a first aid kit.

If Someone Is in Trouble in the Water:

- Reach out to the person using any available object that will extend your reach, such as a pole, an oar, a tree branch, a belt or a towel. Brace yourself to keep from losing your balance.
- Throw anything that will provide the victim support, such as a foam cooler or inner tube. A floating object with a line attached is best so you can pull the person to safety.
- If the water is shallow and calm, put on a life jacket, wade into the water and reach toward the person with a pole, branch, life jacket or other object.
 - Do not enter the water if a current or waves make wading dangerous.
- Keep yourself safe. In most cases, only trained professionals should enter the water to perform a rescue.

Caution: No One Is "Drownproof."

Participation in any swim lesson program cannot "drownproof" your child, despite what some may claim. No child is ever "drownproof" or water safe.

- Water safety and learn-to-swim courses should be age-appropriate.
- Learning to swim well takes time. Do not expect that children will learn to swim in one set of lessons or even in one season.
