**ASAP of Anderson Reveals New Logo with Partners in Anderson**  
**ASAP Celebrates 10 years of Prevention**

Clinton, TN September 2018 — ASAP of Anderson celebrated 10 years of prevention today at the Anderson County Chamber of Commerce. Amongst sandwiches and cake, partners and community members gathered to see the reveal of ASAP's new logo.

After over a decade of prevention in Anderson County, ASAP coalition members decided it was time for a refresh. ASAP's image is changing, but our mission remains the same. The coalition voted unanimously to change the name of the organizations from Allies for Substance Abuse Prevention to ASAP of Anderson. The premise of this change is to utilize person-first language in an effort to decrease and eventually eliminate the stigmas associated with substance use disorder. Instead of using words like "addiction", "abuse", and "addict", which carry a judgmental connotation, with terms like substance use disorder, substance use/misuse, and person in recovery.

"ASAP will continue to focus on preventing and reducing substance misuse in Anderson County. With the support of our partners and this community, youth prevalence of substance use has decreased 53.5%. Our success is a direct result of the compassion and perseverance of this community," said Stephanie Strutner, ASAP of Anderson Executive Director.

Thank you to Food City and Subway in Clinton for their donations for the event, as well as the Anderson County Chamber of Commerce for making this event possible. ASAP will continue to celebrate our 10th Anniversary in the month of September. Keep an eye out for our Member Spotlight series and the launch of our new "Prevention is..." campaign featuring coalition members and partners from around Anderson County. ASAP has also launched a new website today. Check out [www.ASAPofAnderson.org](http://www.ASAPofAnderson.org) to see the new look.

**The Story Of Norris—City, Dam And Tailwater**

Did you know that the City of Norris owes its existence to one person—TVA's first chairman and chief engineer, Arthur E. Morgan? You can hear the whole story at a free, public meeting of the Clinch River Chapter, Trout Unlimited, at 7 p.m. Thursday, Oct. 11, in the parish hall at St. Francis Episcopal Church, 158 W. Norris Road, Norris. When President Franklin Delano Roosevelt selected Morgan to lead TVA in 1933, he accepted on the condition that all hiring would be based on character and merit with no political appointments. Of all the things Morgan did, his hiring stance would prove to be the most important in the success of TVA—but would doom him to failure because it alienated every politician in five states against him. Morgan saw the Tennessee Valley as "the first place in America where we can design a civilization." For him personally, the City of Norris fulfilled a dream of building an experimental utopian community during construction of Norris Dam. World-renowned dam experts said his plan to build Norris Dam in less than three years was crazy because they predicted it would crack. Others called him naive when he predicted in 1936 that the tailwater below Norris Dam would become "a paradise for Clinch River trout." Still, all his dreams and predictions came true. Barry Thacker, founder of Coal Creek Watershed Foundation, has taught the history of Morgan's achievements to Schools. The Clinch River Chapter's mission is to conserve and enhance the Clinch River tailwater trout fishery and its watershed, through conservation projects and through education of children and adults in aquatic natural resources; for more information, visit <https://crctu.org>.
